

XRD Analysis Results

Women's Bazaar II

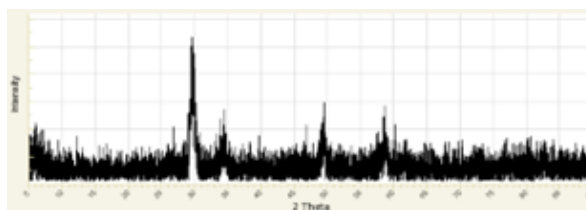

The SciArt Project
2024

Results Report

Point of Interest 1: Yellow painting layer

This is the XRD pattern of the yellow painting layer.

The analysis of the XRD pattern confirms the presence of bindheimite.

Point of Interest 2: Thread from the canvas

This is the XRD pattern of the fibers collected from Point of Interest 2. Cellulose is identified, which is characteristic of fibers of plant origin.
